Mitchell Capital Management Awarded Top Guns Designation by Informa Financial Intelligence

Leawood, Kansas - May 27, 2020— Mitchell Capital Management (MCM) has been awarded a PSN Top Guns distinction by Informa Financial Intelligence’s PSN manager database, North America’s longest running database of investment managers.

Mitchell Capital Management was honored with a 6 star Top Gun rating for its International Equity Separately Managed Account in the quarter ending March 2020.

Through a combination of Informa Financial Intelligence’s proprietary performance screens, *PSN Top Guns ranks products in six proprietary categories in over 50 universes. This is a well-respected quarterly ranking and is widely used by institutional asset managers and investors. Informa Financial Intelligence is part of Informa plc, a leading provider of critical decision-making solutions and custom services to financial institutions.

Top Gun firms are awarded a rating ranging from one to six stars, with the number of stars representing continued performance over time.

Mitchell Capital Management’s International Equity strategy was named Top Gun 6 star rating, meaning our International strategy had an r-squared of 0.80 or greater relative to the style benchmark for the recent five-year period. Moreover, products must have returns greater than the style benchmark for the three latest three-year rolling periods. Products are then selected which have a standard deviation for the five-year period equal or less than the median standard deviation for the peer group. The top ten information ratios for the latest five-year period then become the 6 Star Top Guns.

“Congratulations to Mitchell Capital Management for being recognized as a PSN Top Gun,” said [Ryan Nauman](#), *Market Strategist at Informa Financial Intelligence’s Zephyr*. “This highly esteemed designation allows us to recognize success, excellence and performance of leading investment managers each quarter.”

About MCM International Equity

The International Equity investment strategy seeks long-term capital appreciation by identifying fundamentally stable companies displaying a sustainable level of sales or earnings growth potential, operating outside of the United States. Our team places great emphasis on investing in high-quality businesses and allowing them to compound capital over complete market cycles. We believe this process helps limit strategy volatility during extreme market events. The strategy will maintain approximately 25-35 companies and will invest in American Depositary Receipts (ADRs).
